

STALLION SERVICES AGREEMENT

This Agreement entered into this ____ day of _____, 202____, by and between Avalon Equine, hereinafter referred to as “Stallion Owner” & _____, hereinafter referred to as “Mare Owner”. In consideration of the following mutual obligations and covenants, and in exchange for good and valuable consideration, the receipt of which is hereby acknowledged, Stallion Owner and Mare Owner agree as follows:

1. Mare Owner may be contacted at the following location:

Street Address: _____

City: _____ State: _____ Zip Code: _____

Home Phone: _____ Work Phone: _____

Email: _____

1. Mare Owner agrees that all correspondence or notifications that may arise under this Agreement shall be forwarded to Mare Owner at the address provided above and that any direct communications shall have been considered having been made if the Stallion Owner should attempt to contact Mare Owner at the phone numbers listed above. Email, although convenient, shall not be considered to be such a definitive form of contact.

2. Stallion Owner may be contacted at the following location:

Avalon Equine

33575 E. County Road 1650

Wynnewood, Oklahoma 73098

Phone: (720) 272-5998

Fax: (405) 665-1063

Email: office@avalon-equine.com

Mare Owner agrees that all correspondence or notifications that may arise under this Agreement shall be forwarded to Stallion Owner at the above address and that any direct communication shall have been considered having been made if Mare Owner should attempt to contact Stallion Owner at the phone number listed above. Email, although convenient, shall not be considered a definitive form of contact.

3. Stallion Owner agrees to provide breeding services to the mare described below by **Gladiator d’Avalon, 2016 Palomino Oldenburg** stallion, for the 2025, 2026 or 2027 breeding season. The breeding right is sold with a Three Year Term on a Live Foal Guarantee with all fees and deposits due to the Stallion Owner, payable before delivery of any semen. Breedings using cooled transported semen or on farm AI shall be available between March 15th and August 31st. Access to frozen semen may be available outside those dates or if the stallion should become unavailable. On-farm breeding is performed only by Artificial Insemination, i.e., NO live cover. All veterinary costs are the responsibility of the Mare Owner.

4. **This breeding was purchased at a Special Price! This discounted breeding fee is Three Hundred Fifty Dollars (\$350.00 U.S.)** All checks, money orders, or cashier's checks should be made payable to **EQUINE-REPRODUCTION.COM, LLC**. In the event Mare Owner chooses to pay the booking/breeding fee by VISA, MASTERCARD, AMERICAN EXPRESS or DISCOVER, the deposit and costs associated with collecting and shipping will be charged to their account at time of shipping of semen.

5. The mare to be bred pursuant to this Agreement is described as follows:

Name of Mare: _____

Registry and Registration #: _____

Date of Birth: _____

Sire's Name: _____ Registry & Reg. # _____

Dam's Name: _____ Registry & Reg.# _____

6. Present Breeding Status of Mare: _____ Pregnant _____ Open

If the mare is in foal, please provide the following information:

Last Breeding Date: _____ Possible Date of Foaling: _____ (340th day)

7. This clause is applicable to Mare Owners utilizing cooled transported semen only (frozen semen is subject to different charges, for which please contact us):

a. Mare Owner agrees to pay a collection and processing fee of \$250.00 per collection in addition to outward and return shipping costs of the container. This fee is subject to change without notice.

b. Stallion Owner must be in possession of valid credit card details to which to apply all charges prior to the shipping of the semen and is hereby authorized to make those charges.

c. Semen may be shipped in a disposable shipping container for an additional cost of \$40.00. If semen is shipped in a disposable container, Mare Owner does NOT need to return said container to Stallion Owner. Shipping in a disposable container is NOT optimal for a quality shipment and Stallion Owner reserves the right to ship in an Equitainer

d. Mare Owner agrees to contact **AND SPEAK TO THE** Stallion Owner via telephone to order semen no later than 10:00 am CST on the day the semen shipment needs to be sent. In the event Mare Owner contacts Stallion Owner after 10:00 a.m. CST and orders semen to be shipped that day, there will be a \$75.00 "immediate collection" fee charge in addition to all other fees and shipping costs. Late orders requiring additional collections are dependent upon the individual stallion being able to be collected again and/or producing an ejaculate of adequate quality for shipping.

e. Stallions' semen is collected and shipped by Equine-Reproduction.com, LLC.

8. To optimize pregnancy rates with cooled transported semen, it is recommended that the mare be inseminated on the day she is expected to ovulate, prior to ovulation. To accomplish this, semen needs to be ordered, collected and shipped on the day prior to the anticipated ovulation. This permits collection and shipment time of roughly 24 hours. We generally ship by FedEx. It is understood that semen delivery on Sunday and Monday and certain National Holidays via FedEx is impossible.

9. It is the Mare Owner's responsibility to deliver our shipping container (Equitainer) to the return courier company within three days of receipt of a shipment. In the event the container is not returned within the time allotted, there will be a \$25.00 per day charge for each additional day over the three days that the container is not return-shipped, up to a total of \$500. The container must be returned in a clean condition. The cup inside the Equitainer that carries the semen must be emptied of the collection bag/centrifuge tubes and rinsed out. There is a \$25.00 cleaning charge if the Equitainer is returned to us without having this done. If an Equitainer is returned missing coolant cans or the Isothermalizer, these will be charged to the Mare Owner at cost. We **STRONGLY**

recommend that the Equitainer be taped closed in the same manner as when it is shipped out. If a disposable shipping container is used, there is an additional cost of \$40.00 for said container, however the disposable container does NOT need to be returned. Authorization is hereby provided by the Mare Owner to the Stallion Owner to make these charges to the credit card provided.

10. Mare Owner specifically agrees and understands that no semen will be shipped until all fees have been paid and credit card information provided.

11. Stallion Owner assumes responsibility ONLY to present semen for shipment to the Mare Owner in viable condition.

12. In the event the mare is deemed not in foal 18 days after the date of last insemination, Stallion Owner agrees that upon notification by Mare Owner or their veterinarian that the mare is not in foal, to continue to ship semen through to the end of our indicated breeding season and until a live foal is produced up to the duration of the extent of the contract.

13. Stallion Owner recommends that the Mare Owner perform or have performed the following prior to breeding: Examination by a veterinarian and a current uterine (endometrial) swab culture *and* cytology, *or* endometrial biopsy *and* culture performed showing that the mare is in a sound breeding condition and free of any infection. Mare Owner should also have the mare vaccinated and de-wormed within 30 days prior to the initial shipment of semen to Mare Owner. Mares being bred on foal heats are exempt from the uterine soundness evaluation suggestions, however, should said mare fail to conceive on foal heat breeding, the above recommendations would apply. We also strongly recommend adequate ultrasounds be performed to identify ovarian status and any post-breeding uterine management requirements. Please see articles on our website under <https://Equine-Reproduction.com/mares> for more breeding information.

14. If utilizing cooled transported semen, the Mare Owner agrees to inseminate only the mare described above unless a substitution has been previously approved by the Stallion Owner. If an alternative or additional mare is bred, the Stallion Owner must be contacted immediately and any required additional financial arrangements made. Unauthorized additional mares will automatically be subject to the full stud fee charge with no discounts applicable if this notification is not received within 24 hours of breeding.

15. In the event Mare Owner plans to perform an embryo transfer or ICSI using the contracted breeding, prior written authorization is required. This contract is intended to provide only a single foal. Production of multiple embryos through the use of ET or ICSI will require additional contracts and payments.

16. In the event the mare should be pronounced in foal by the veterinarian, and fail to produce a live foal as the result of the breeding, Mare Owner shall be entitled to have the mare re-bred for no additional booking or breeding fee. As above, a \$500.00 refundable semen shipping deposit will be required (if applicable) or valid credit card against which collection and shipping charges will be charged.

a. A live foal shall be defined as a foal that stands and nurses without assistance for 72 hours.

b. If pregnancy or neonate loss occurs after the end of the breeding season, prior to Stallion Owner granting re-breeding of the mare, Mare Owner must furnish a Veterinarian's Certificate, within 10 days of the foal's death, abortion or when it otherwise becomes known to Mare Owner or Mare Owner's veterinarian that the mare is no longer pregnant. Said Veterinarian's Certificate shall state that the mare did not produce a live foal as defined in subsection (a) of this paragraph and that the mare was maintained in a healthy condition up to the time of pregnancy failure or foaling.

c. In the event that the Mare Owner's veterinarian deems that the mare is unfit for re-breeding, an appropriate substitute mare may be allowed following discussion with and at the sole discretion of Stallion Owner.

17. Mare Owner hereby agrees, releases, indemnifies and holds Stallion Owner, his/her employees, agents, associates and/or assigns, harmless with respect to any liability for any sickness, disease, accident, injury or loss of or to the mare.

18. Stallion Owner and Mare Owner assume all risk of loss or damage to their own respective animals and acknowledge that the risk of any such loss should be covered by appropriate insurance if so desired.

19. Should Stallion Owner determine that the stallion is not in a fit condition to breed, or in the event that the stallion has been sold or died, Stallion Owner shall notify Mare Owner of such condition. Mare Owner shall have the option of substituting the breeding to another stallion owned by Stallion Owner or breeding to the original stallion via frozen semen if available.

20. MARE OWNER AGREES THAT NEITHER STALLION OWNER, HIS/HER EMPLOYEES, AGENTS, ASSIGNS, AND/OR ASSOCIATES SHALL BE LIABLE TO MARE OWNER OR ANY OTHER PARTY FOR THE FAILURE OF THE MARE TO PRODUCE A LIVE FOAL FOR ANY REASON. MARE OWNER AGREES AND UNDERSTANDS THAT MARE OWNER'S SOLE REMEDY SHALL BE TO HAVE THE MARE REBRED PURSUANT TO PARAGRAPH 16, OR IF THE STALLION IS UNAVAILABLE FOR BREEDING, TO USE A DIFFERENT STALLION OWNED BY STALLION OWNER OR FROZEN SEMEN IF AVAILABLE, AS PER 19 ABOVE.

21. This Agreement and the rights hereunder shall not be assignable or transferable by Mare Owner to any third party without the prior written approval of Stallion Owner and no substitution of the mare to be bred shall be made without the prior written approval of Stallion Owner.

23. The parties agree that the terms and conditions of this Agreement may not be varied or modified, in any way, except for an express written agreement signed by Stallion Owner and Mare Owner.
